

Grant County Master Gardeners present:

Spring Webinar Series

Come join us with Zoom and hear our speakers present two interesting topics:
how to diagnose tree problems in our zone and succulent and cacti information.

How To Diagnose Tree Problems

Jan. 18, 2024

Mark Vitosh

Forester of DNR of Iowa

"Trees provide shelter and shade, help prevent erosion, and add beauty and monetary value to our property. Unfortunately, many factors can cause trees to become unhealthy and lose their aesthetic value or die. Some of those factors include: environmental stresses, site problems, animal injury, infectious diseases, and insect infestations."

Succulents and Cacti

Feb. 15, 2024

Tim Tasker

greenhouse owner,
Cassville

Tim loves the world of succulents and will cover how to care for succulents and cacti. He will cover the plants he uses and how he got into his business.

Presentations begin at 6:30PM and last about an hour with time for questions. To register contact nashmore4301@gmail.com
